

AHS Cross Country season kicks off with a broken record...almost

By Mitchell Schooley, Noah Morren | September 28, 2020

AHS cross country season is finally underway, and they couldn't be more excited. Last Wednesday, Allendale high school's varsity cross country team ran in a jamboree against the Fruitport varsity team. During the meet, one of the senior runners, Hayden Rhodea, came 0.7 seconds away from breaking the school record, Rhodea has had three excellent cross country seasons as a runner.

The cross country team has attracted many different participants this year. Some runners on the team are only practice participants, using the practice

and conditioning to stay in shape for the upcoming sports season. Hayden Greer, Andrew "T-Money McBuckets," and Jake Chappell are some of the runners who are doing it to help with conditioning for basketball season.

The Allendale high school cross country team was created to bring together some of the students here and show off their skills in the sport that they love. Senior Hayden Greer expressed, "It's a dream to be able to run this year, even if i'm just practicing. I feel honored to run with such a great group of

people and faboulous coaching staff."
